## DETAILED ACTION

### *Response to Amendment*

1. The amendments to the claims filed on November 5, 2009 have been fully considered. The 35 USC 112 1<sup>st</sup> paragraph rejection over "solvates" has been obviated and is thus hereby withdrawn.
2. The 35 USC 112 1<sup>st</sup> paragraph rejection over "thrombopoietin receptor activator" is maintained. Below are responses to Applicant's remarks.

Applicants submit that the Office's assertions regarding the correlations between thrombopoietin activation and certain afflictions are entirely misplaced in an enablement rejection of *composition* claims. As the Office has already recognized, the preamble of the claims in question (i.e., thrombopoietin receptor, pharmaceutical preparation and platelet increasing agent) are merely "intended uses" of the claimed compositions (see page 7).

Applicants note that the Patent Office's current position regarding statements of intended use is that "language that suggests or makes optional but does not require steps to be performed or does not limit a claim to a particular structure does not limit the scope of a claim or claim limitation" (see MPEP 2106, IIC - emphasis added). Accordingly, the Office's enablement analysis with respect to the intended use of the *claimed compositions* is irrelevant to the patentability of *compositions* because intended uses do not limit the scope of the claims.

Applicant's response is noted, however, it is not found to be persuasive. The claimed compositions are for treatment of diseases which involve the thrombopoietin receptor. It is maintained that the claims as drafted are not enabled because the specification does not enable the use of the compounds for the treatment of the diseases.

3. The 35 USC 102 rejection is maintained. The priority document does not provide sufficient support under 35 USC 112 1<sup>st</sup> paragraph. See for example, the definition of E which in the priority document does not exclude pyridyl.

#### ***Information Disclosure Statement***

4. The information disclosure statement (IDS) submitted on September 25, 2009 was in compliance with the provisions of 37 CFR 1.97 and 37 CFR 1.98. The IDS was considered. A signed copy of form 1449 is enclosed herewith.

#### ***Conclusion***

**4. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
